

ServTouch Enterprise Solutions

- Empowering your documents.

Enterprise Solutions

With the acquisition of Efficient Office in 2004, ServTouch has been moving beyond providing print and copy solutions to clients to assisting clients in empowering their documents through a myriad of industry-leading solutions. From print management to document management, our solutions are positioned to address a customer's varying needs.

Print Management

Pharos Systems International, Inc. is the recognized industry leader in providing enterprise print asset management and cost-recovery solutions to both corporate office and higher education environments. With over a decade of experience, we help customers track, monitor, audit, and control their print and copy assets to reduce waste, optimize performance, guide the purchase of new devices, and make the most of existing ones. As a result, thousands of customers in over 24 countries are currently benefiting from optimized printing environments, and are experiencing significant expense reduction.

Cost Recovery Management

For industries that require a proven solution to track and charge print, scan, photocopying, fax, calls and even email usage back to their clients, **Stratatel Softlog** is the preferred choice.

Document Capture & Routing Solutions

Nuance leads the industry in OCR technology as well as document capture through proven products such as Omnipage and PaperPort. Ideal for organizations of all sizes but especially so for SMEs, Nuance solutions will help organizations capture and extract information from its paper documents. In addition, Nuance also offers the range of eCopy solutions which increase the value of an organization's MFP by converting it into a document capture and routing station, allowing documents to flow directly into backend systems such as Sharepoint and Worksite.

For higher volume requirements numbering in the hundreds of thousands, **EMC's Captiva** solution is the choice. Scalable and flexible, it is a powerful solution that allows organizations to capture and extract data from large volumes of documents directly into backend systems.

Document Management

The **iManage Worksite** document management system allows an organization to centralize and protect its intellectual property and yet allows its employees to easily collaborate with one another. Versioning, access controls, remote access, email management are but some of the features of this proven solution.

Collaboration Solution

Microsoft Sharepoint solution is an industry leading collaboration solution that allows a company's staff to work together easily and securely. It's flexibility means that it can be easily configured as an Intranet portal, a collaboration site or even a document management solution.

Workflow Management

From simple to complicated workflows, **WorkflowGen** allows an organization to implement and manage work processes in a clear and transparent manner.

Document Change & Risk Management

The industry leader in document change and risk management, **Workshare** allows users to quickly and accurately assess changes made by collaborators on a document. Furthermore, Workshare is also able to help an organization ensure that sensitive information is not inadvertently disseminated.

Storage Solutions

EMC is one of, if not, the leading storage solutions provider globally. Its storage & backup solutions are one of the most reliable in the world, with a range of solutions for the SME to the large MNC Enterprise.

Buffalo provides cost effective storage solutions for small and medium size offices that are not only reliable but also scalable.
